2009 Ford Mustang Order Guides

The 2009 Ford Mustang and 2009 Shelby GT500 order guides have begun to float around the web, so they figured they would go ahead and provide them here as well. It appears as though nothing dramatic is going to change, despite the numerous

rumors and "in-the-know" spy shots that float around online.

Cosmetics and packages are the main focus, touching on updates to the 2009 V6, GT, Bullitt, California Special, Warriors in Pink, the GT500, and the GT500KR.

CDC S197 Ford Mustang Windstop

Classic Design Concepts is proud to unveil a product that allows for more comfort while cruising in style at the wheel of an S197 Ford Mustang convertible. This CDC wind stop is designed to coexist with the CDC Light Bar, making air movement

inside the aire libre cabin a minimal concern. Additionally, positive road noise reduction helps the driver stay in tune with the renowned exhaust note every Ford Mustang produces. This product, as well as others in the CDC portfolio, adheres to all safety regulations required for motor vehicles. Better check this one out!
